Abstract

Collection of Data Structures implemented in Literate C.

1 Hello World

We print hello world with the built-in function puts.

1a	<pre>⟨main 1a⟩≡ int main() { puts("Hello World!"); }</pre>	(1c)
	Default empty header.	
1b	<pre>⟨main.h 1b⟩≡ #pragma once</pre>	
	Final internal implementation. Will print Hello World!.	
1c	<pre>⟨main.c 1c⟩≡ #include "main.h" #include <stdio.h> ⟨main 1a⟩</pre>
